SUMMARY

Motivated tech professional with a strong background in full-stack development, networking and IT services. Over seven years of experience managing network infrastructure, troubleshooting systems, and running successful businesses. Turned a childhood passion for coding into real hands-on full stack projects; constantly learning and improving through self-teaching.

WORK EXPERIENCE

Computech Nagpur (Founder and Owner)

May 2016 - Present

- Founded and managed a successful computer sales and service business, delivering IT solutions to both B2B and B2C clients (4.9 star on [Google](#)).
- Provided software installation, remote desktop configuration, and end-to-end network setup, including LAN cabling and infrastructure mapping.
- Conducted on-site inspections and troubleshooting for corporate clients, optimizing networking systems and server performance.
- Delivered comprehensive technical support, resolving hardware and software issues, managing system installations, and overseeing upgrades.
- Key Clients:
 - **Finance:** Akshay Rathi and Associates (CA Firm)
 - **IT:** Anand Infotech
 - **Education:** Tree House Kindergarten School
 - **Transportation:** Shri Ram Logistics
 - **Healthcare:** Deep Impex Medicines Distributor
 - **Retail:** Rohit Dry Fruits and Spices, Sri Bhagirath Textiles Ltd

Dreamplay Nagpur (Co-Founder and Technology Head)

Feb 2020 - Aug 2024

- Co-founded and managed a leading kids' entertainment center featuring Virtual Reality experiences and a soft play area ([Instagram](#), [Facebook](#))
 - Designed and built a custom VR infrastructure, including high-performance gaming PCs, VR headsets, projector displays, and multiplayer gaming networks.
 - Managed and maintained the entire network ecosystem, including configuring routers, switches, VR headsets, and CPUs, while developing network maps for efficient troubleshooting and performance optimization.
 - Led a team of 3-5 employees, overseeing daily operations, optimizing processes, and ensuring exceptional customer satisfaction.
 - Assisted customers with VR equipment setup, game navigation, and safety guidelines for an immersive experience.
 - Led promotional activities, introduced new VR games, and organized special events to enhance customer engagement.
-

EDUCATION

Bachelor of Computer Applications (BCA)

Mar 2012 - Mar 2015

VMV (Vrajlal Manilal Vasant) College, Nagpur

PERSONAL PROJECTS

Netflix Clone

- Designed and developed a full-stack Netflix clone, replicating core functionalities such as browsing, adding, updating, and deleting titles.
- Implemented a responsive front-end using JavaScript, HTML, and CSS.
- Built a robust back-end with Node.js, and MongoDB.
- **Github:** <https://raunak94.github.io/netflix-clone/>

Lyrics Now

- Designed and developed a python software that automatically retrieves lyrics for the currently playing song by integrating with music player APIs and online lyric databases.
- **Github:** https://github.com/Raunak94/Playing_songs_and_fetch_lyrics

Coding & Problem Solving

- Regular participant in CodeForces and LeetCode weekly coding contests.
- Active problem solver on Leetcode and other coding platforms (100+ total problems solved).
